

Shaikh Adnan

+91 9307908194 | adnanmujtabba5682@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | Hyderabad, India

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, C++, HTML/CSS

ML & Deep Learning: Scikit-learn, PyTorch, TensorFlow, Keras, Pandas, NumPy, NVIDIA cuDF, Matplotlib, Feature Engineering, Supervised/Unsupervised Learning, Model Evaluation & Tuning, MLOps

AI, CV & NLP: Generative AI, LLMs (Gemini AI), RAG, Prompt Engineering, OpenCV, Computer Vision, NLP, Image Classification & Object Detection

Backend & APIs: Flask, Express.js, RESTful APIs, Docker

Cloud, Data & Databases: Google Cloud (BigQuery, Cloud Run), Oracle Cloud (OCI), AWS, Databricks, Render, Vercel, MongoDB, MySQL, SQLite

Analytics & Tools: Power BI, Tableau, React.js, Vite, Git, GitHub, Agile, Jupyter Notebook, VS Code, Firebase Auth

EXPERIENCE

SaiKet Systems

Remote

Machine Learning Intern

Dec 2025 – Jan 2026

- Engineered an end-to-end customer churn prediction pipeline on enterprise telecommunications data, implementing data preprocessing, categorical encoding, and stratified 80/20 train-test splits.
- Executed feature engineering on key churn drivers (contract type, tenure, monthly charges), isolating highest-leverage retention indicators.
- Trained and benchmarked classification models (Logistic Regression, Decision Trees, Random Forests, Gradient Boosting), evaluating performance via Scikit-learn across ROC-AUC, precision, recall, and F1-score.

The SmartBridge

Hyderabad, India

Machine Learning Intern (Certified)

Nov 2025 – Jan 2026

- Developed production-grade ML pipelines across real-world tabular datasets covering data ingestion, cleaning, and transformations using Python, Pandas, and NumPy.
- Trained supervised classification and regression models using Scikit-learn; conducted iterative EDA cycles and model comparisons to maximize accuracy and F1 metrics.
- Documented pipeline architectures and evaluation outcomes, standardizing handoffs between data preparation and downstream modeling workflows.

PROJECTS

internAI – AI Resume & Matching Platform | Python, Flask, Gemini AI, BigQuery | [Live Demo](#)

Aug 2026

- Engineered a full-stack platform at Gen AI Academy APAC Hackathon, integrating Google Gemini AI for resume parsing and ATS scoring.
- Benchmarked a GPU-accelerated NVIDIA cuDF data pipeline against Pandas over 100,000 records, cutting latency from 4.35s to 0.24s (an 18.5x speedup).
- Architected 5 Flask REST API endpoints with Google Cloud BigQuery persistence, containerized via Docker on Render.

NYC Airbnb Price Predictor | Python, Scikit-learn, Flask, React.js | [Live Demo](#)

2025

- Trained and evaluated four Scikit-learn regression models across 47,840 NYC Airbnb listings to forecast nightly prices; scoped outlier boundaries to \$10–\$500 to optimize generalization.
- Selected Extra Trees Regressor as the top-performing production model achieving an R^2 of 0.51 and MAE of \$38.55.
- Deployed a Dockerized Flask REST API backend on Render with a responsive React/Vite interface on Vercel.

EDUCATION

Lords Institute of Engineering & Technology (Osmania University)

Hyderabad, India

Bachelor of Engineering (B.E.) in Artificial Intelligence & Machine Learning, CGPA: 8.08/10.0

2022 – 2026

CERTIFICATIONS & ACHIEVEMENTS

Certifications: Oracle Cloud Infrastructure (OCI) Foundations Associate, DataCamp Data Analyst Associate, IBM AI Fundamentals, Databricks Generative AI Fundamentals.

Hack The League (2024): Selected to represent Lords Institute of Engineering & Technology as part of Team Lords at Jaipur.

Google Cloud Gen AI Academy APAC (2026): Completed Cohort 2 (powered by Hack2skill), building solutions using Google Cloud & GenAI.

HR Cost Intelligence: Built a real-time meeting-spend analytics dashboard at React Hyderabad x Masters' Union Buildathon.
