PROFESSIONAL SUMMARY

AI & Machine Learning graduate with hands-on experience in building and deploying end-to-end machine learning and full-stack applications using Python, Scikit-learn, Flask, React, SQL, and Google Cloud. Skilled in data preprocessing, predictive modeling, REST APIs, and cloud deployment through academic projects, hackathons, and internship experience and certifications in Data Analyst Associate, Oracle Cloud, IBM AI & Databricks GenAI. Proficient in Python, Scikit-learn, Flask.

TECHNICAL SKILLS

Languages: Python (Primary), JavaScript, C++, SQL

ML / Data: Scikit-learn, NumPy, Pandas, Matplotlib, Seaborn, EDA, Feature Engineering, Predictive Modeling, Supervised Learning, Model Evaluation, NLP, Deep Learning, Generative AI (Gemini AI)

Web / Cloud: Flask, Express.js, React/Vite, REST APIs, Google Cloud (BigQuery, Cloud Run), Render Cloud, Oracle Cloud (OCI), Databricks, Docker, HTML/CSS

Tools: Git, GitHub, Firebase Auth, Jupyter Notebook, VS Code, MongoDB, SQLite, MySQL

WORK EXPERIENCE

Machine Learning Intern — The SmartBridge (Certified)

Nov 2025 – Jan 2026

Remote | Gachibowli, Hyderabad

- Built end-to-end ML workflows on real-world datasets using Python, Pandas, NumPy, and Scikit-learn.
- Applied data preprocessing, feature engineering, and model evaluation (accuracy, precision, recall, F1-score).
- Worked on supervised learning pipelines — classification & regression — and predictive analytics tasks.
- Strengthened collaborative coding and documentation practices in a remote team environment.

PROJECTS

internAI — AI Resume Analysis & Internship Matching Platform

GitHub | Live Demo

React, Vite, Express.js, Flask, Gemini AI, Pandas, Docker, Render

- Built a full-stack AI platform for resume analysis and internship matching at a Gen APAC hackathon, integrating Google Gemini AI for resume parsing, ATS scoring, and personalized internship recommendations.
- Designed a priority-scoring pipeline in Pandas that ranks applications on urgency, platform, role-match, and status.
- Containerized the app with Docker and deployed it on Render cloud for live access.

Employee Performance Prediction System

GitHub | Live Demo

Python, Scikit-learn, Flask, Pandas, NumPy, Render, Git

- Deployed an end-to-end ML web app predicting employee performance from real HR datasets on Render cloud.
- Performed data cleaning, outlier detection, and feature selection to improve model generalization.
- Trained and compared multiple Scikit-learn classifiers; selected the best model by F1-score and accuracy.
- Built a Flask REST API for real-time predictions; managed the full project lifecycle via Git & GitHub.

EDUCATION

Lords Institute of Engineering & Technology, Hyderabad — Osmania University

2022 – 2026

B.E. — Artificial Intelligence & Machine Learning

Sri Chaitanya Junior College, Miyapur, Hyderabad

2019 – 2021

Higher Secondary Education, Aggregate: 84%

CERTIFICATIONS

- Oracle Cloud Infrastructure (OCI) Foundations Associate
- DataCamp Data Analyst Associate
- Machine Learning Internship
- IBM Artificial Intelligence Fundamentals
- Databricks Accredited Generative AI Fundamentals
